

MECHANICAL TRANSPLANTER CO.

MODEL 1000

STANDARD EQUIPMENT:

Direct Drive System

Fiberglass seats

Faster Planting Speeds - Chain and gearing design gives 20-30% faster planting speeds

One Universal 12 Pocket Chain - For spacings 6" and up, eliminating the need to choose between 6, 8, or 10 pocket chains or discs

High Volume Easy to Adjust Even Flow Water Valve

UHMW Rollers on V-3 Pockets for less friction and longer wear

Quick Change Sprocket System - One removable clip pin for sprocket changing

For Strawberry Growers - Adjustable axles eliminates the need for pocket extensions by adjusting axles up and lowering the pocket 1" deeper into the **395R Round Point Shoe**

Model 1000 with optional single row 3-point hitch

OUR PATENTED FLOAT WHEEL DIRECT DRIVE SYSTEM maintains correct ground contact at all times for both the drive wheel and rear packing wheels letting the units float independently for any number of rows. The wheel smoothes, firms and ideally prepares the soil providing accurate plant placement and proper depth control in all soil conditions.

Standard 395R Round Point Shoe

Optional 395RP Poly Non-stick Shoe

Model 1000B-3 - Standard single row with a 55 gallon poly tank. Options shown include cushion seats, rubber packing wheels, and poly double disc shoe.

Model 1000 - Shown with optional double-high boxes, poly double disc shoe, rubber packing wheels, cushion seats and single row 3-point hitch.
